

Hi students,

The Office of the Registrar has been working with IT to stand up an electronic document workflow to replace the paper Application for Course Adjusting form. The new paperless workflow is facilitated through the ONCE system.

The course registration online workflow in the ONCE platform can be found at <https://once.wku.edu.cn> (Please log in with your WKU email address and password). The title of the workflow is: KU Course Registration Application.

For further information, please refer to the email our office sent on July 28, 2022.
